An American Tradition

SAFETY

Read and follow all safety precautions given in Honda engine instructions manual for their GXH50 engine. In addition, read and follow the safety Instructions give below:

⚠ DANGER ⚠

Never fill the engine with gas when on operator's back or while it is running! If fuel is spilt, wipe it away carefully, and wait until the fuel has dried before starting engine!

Flammable, NO SMOKING!

Never run engine without flex shaft attached. With the flex shaft removed, the rotating shaft is exposed, which could get entangled with loose clothing, hands and other items causing a dangerous situation.

⚠ WARNING ⚠

Always wear hearing and eye protection!

Keep hands away from hot metal parts of the engine and belt drive.
