

DENVER VIBRATOR

HHPV Plate Vibrator

The Denver Vibrator HHPV plate vibrator is a portable hand held vibration system that is ideal for use on a wide range of applications. Built for the jobsite, the rugged and dependable HHPV is engineered for a long life of trouble free service.

Features:

- Lightweight - just 22 lbs
- Single-Phase, 115 volt
- Adjustable Force Output
- Double Isolated Handles
- Beveled Edges for Easier Sliding Across Surfaces

Uses:

- Assisting in the Installation of Tactile Warning Tiles in Wet Concrete
- Insulated Concrete Forms
- Light Consolidation on Thin Cast Walls
- Manufacturing Paver Stones
- Poured-in-Place Concrete Countertops
- Wherever Light Vibration is Needed
